The sports interest card is sent to all athletes so fall coaches know who has an interest in their respective sport. When the card is sent back (you should send this card back immediately upon receiving it) and processed by the school, each coach is then aware of your son/daughter's interest. The coach should then send information that should include a practice schedule and a list of expectations. If for some reason you do not receive information, you should contact our Admission office (570-270-2160).

All athletes need the following items to practice (these cards and permissions will be included in a summer mailing from the deans team office).

- Parental Athletic Certification Form
- Medical Release and Permission
- General Permission Card
- Long Medical Form
- Drug and Alcohol Policy
