*The American School in Japan*  
*Sidwell Friends*

# Introduction

## Virtual Learning

In the event of a temporary campus closing, Wyoming Seminary may need to transition from on-campus learning to off-campus virtual learning for our students. During virtual learning Sem students will engage in daily, scheduled synchronous (real-time) and asynchronous (learning/sharing outside the constraints of time and place) learning. This type of learning involves using devices and platforms to continue learning when being on campus is not possible or when the school deems virtual learning is necessary. At the heart of our virtual learning plan is the relationships between community members. Virtual learning requires a unique partnership between Sem and our families. Flexibility, creativity, problem-solving, and communication are critical for successful learning experiences. Wyoming Seminary is committed to planning and implementing the best possible educational experience for our families during virtual learning.

## Virtual Learning Approach

☐ Teaching and learning will continue, but it will look and feel different.

*"The students of the future will demand the learning support that is appropriate for their situation or context. Nothing more, nothing less."*

Dr. Marcus Specht  
Professor of Advanced Learning  
Technologies  
Open University of Netherlands

☐ Appropriate guidelines and expectations exist so that the virtual learning school day does not place students in front of screens too much. Suggested daily schedules for on/off screen time by grade will help support parents and caregivers.

☐ Consistent communication is a foundation for success.

☐ Methods of assessing students and communicating student progress will include conferences, video chats, traditional assignments, and more.

☐ Lessons will be recorded and made available when possible.

## Virtual Learning Platforms

Platforms used for virtual learning will vary per grade level. Grade level teachers will contact their families with specific requirements. G Suite will continue to be an integral part of each student's learning.

Actively reading a novel on the iPad.

# Introduction

## Virtual Learning Platforms (continued)

🖥️ **Toddler-Preschool:** Students will not engage in virtual learning

🖥️ **PreK-Kindergarten:** Internet access, device (iPad preferred) for access to Internet, hands-on materials, and a space to work, play, and exercise

🖥️ **Grades 1-3:** Internet access, device (iPad preferred) for access to Internet, hands-on materials, and a space to work, play, and exercise

🖥️ **Grades 4-8:** Internet access, device for access to Internet, hands-on materials, and a space to work, play, and exercise

Multi-media use helps students process information in different ways.

## Wyoming Seminary Tech Help

The Wyoming Seminary Tech Team is available for faculty, students, and parents who need tech support related to virtual learning.

Please try the following steps before contacting the Tech Team:

1. Check to make sure that all necessary connections (USB, power, etc.) are plugged in properly.

# Introduction

## Wyoming Seminary Tech Help

(continued)

2. Run any updates.
3. Shut down, then power on the device that isn't working properly.

*Students and parents needing tech assistance should fill out the tech help ticket form below:*

 [Link to Help Ticket Form | Wyoming Seminary Tech Team](#)

# Faculty/Staff

## Faculty/Staff

### Leadership Team

- Create, distribute, and update the virtual learning handbook.
- Establish clear channels of communications between faculty, staff, families, and students.
- Support faculty and students/families working in a virtual learning environment.
- Help teachers implement virtual learning and ensure high-quality learning experience for all students.

### Classroom Teachers

- Attend school meetings, participate in professional development, and adjust curriculum for virtual learning.
- Set up virtual classrooms in appropriate platforms.
- Follow all recommended guidelines and best practices for technology used for instruction. This includes updating devices regularly, thoughtfully sharing links and passwords within the Sem community, and limiting Google classrooms and other virtual classroom spaces to students.
- Clearly define student expectations for synchronous and asynchronous learning:
  - Overview and practice with any digital platform that might be used.
  - Expectations for online behavior, including appropriate approaches (language, attire) to learning, participating in any breakout groups or online chats, etc.
  - Clarity about how performance will be assessed with online learning.
  - Expectations for makeup work if students cannot participate.
- Encouragement to have a buddy in the class with whom they can connect in the event that they have tech/communication problems.

Wyoming Seminary's President Kevin Rea.

"Verum, Pulchrum, Bonum, - "The True, The Beautiful and The Good" - Sem's motto is a part of everything we do.

# Faculty/Staff

## Classroom Teachers (continued)

- Collaborate with other members of your team or department to design virtual learning experiences for students.
- Communicate frequently with students and, as needed, with their parents.
- Provide timely feedback to support student learning.
- Carefully document conversations with students and parents to ensure accurate record-keeping.
- Work with supervisors to review feedback about families' virtual learning experiences and make appropriate adjustments.
- Provide asynchronous learning for students if needed.
- Maintain established class schedules.
- Engage with students professionally as if teaching in a physical classroom (attire, language, setting, etc.).
- Keep gradebooks up-to-date (grades 5-8).
- Attend division, department, grade level, and full faculty meetings.
- Attend virtual assemblies with students in each division when scheduled.
- Hold “office hours” at the end of each day through Zoom (grades 4-8). Teachers may choose to make these open or by appointment.
- Utilize any workday time that isn't direct student contact time for planning, collaboration, curriculum work, assessment development, etc.
- Take attendance.

*8th-Grade speeches are given through Zoom video conference.*

*Powerschool allows parents to see their students' progress at all times.*

*Staff and faculty are committed lifelong learners.*

# Faculty/Staff

## Learning Support Teachers

- Support all teachers and teams in the implementation of virtual learning.
- Continue to offer support for students with learning plans and/or diagnosed learning differences.
- Support teachers in scaffolding or modify assignments for students to support subject or classroom teachers.
- Communicate regularly and continue to support subject or classroom teachers' efforts to differentiate lessons and activities for the students.
- Communicate regularly with students and their parents to help them have success with virtual learning, using Google calendar appointment slots.
- Provide supplementary learning activities for students who might benefit from additional practice to close academic and curricular gaps, or for students who need additional enrichment/challenge.
- Lead small groups online for study sessions and tutorials.

## Counselors

- Serve as liaison for communication with students and families in crisis.
- Maintain developmentally appropriate social-emotional resources.
- Host office hours at set times to access counseling by phone or FaceTime. Encourage employees, students, parents, and caregivers to schedule these meetings as needed.
- Support faculty with well-being tools, conversations, and collaboration.
- Support advisors and/or classroom teachers as needed with students who are absent or cannot participate.
- Lead small groups online for personal support.
- Facilitate weekly divisional parent support sessions.

*Teachers regularly participate in professional development.*

*Even teachers make time for their best friends!*

*Individualized attention is not lost during virtual learning.*

# Faculty/Staff

## Specials Teachers

- Staying mindful of the resources and tools families may or may not have in their homes, develop a bank of projects and activities (including videos) for students, and share these with classroom teachers.
- Conduct face-to-face sessions (synchronous) class sessions at all grade levels.
- Collaborate with classroom teachers on how to integrate specialist areas into classroom projects and experiences.
- Use any non-student contact time to plan, develop curricula, collaborate, and support other areas of the school.

## Classroom Aides

- Communicate regularly with classroom teachers to identify ways to support students and contribute to virtual learning.
- Monitor student learning and provide feedback to students as requested by the teachers.
- Participate in grade-level planning and division meetings.
- Use any non-student contact time to plan, develop curricula, collaborate, and support other areas of the school.
- Support students who are not able to attend class.

## Tech Support Team

- Manage a [ticketing system](#)  for faculty, students, and parents.
- Review and develop how-to tutorials, ensuring teachers, students, and parents have the necessary tools and skills to excel in a virtual learning environment.
- Continually monitor the needs of teachers, students, and parents and troubleshoot their challenges, as needed.
- Be available in person or remotely to provide tech support help.

*Technology can help students stay fit and active.*

*Building a community is still vital to who we are even when we go virtual.*

# Parents/Caregivers

*Wyoming Seminary understands that a shift to a virtual learning approach requires our students and families to make adjustments. Yet a continued partnership with parents and caregivers can play a vital part of ensuring the success of the plan. The dean, classroom teachers, learning support staff, and technology department are all available to support and guide students (and parents/caregivers). It is necessary to familiarize yourself with the student section to understand the expectations set for all learners. Below are some guidelines for parents/caregivers to help students achieve success with virtual learning.*

## Establish a Regular Schedule

It is important to establish a routine while learning from home:

- Begin with a regular bedtime and wake-up time each day.
- Build in breaks throughout the day, including nourishment and movement.
- Check in to encourage engagement throughout the day.
- Discuss the process of learning with your child and reach out to teachers if you feel they are struggling.
- Set home expectations about schoolwork.

## Create a Study Space for Your Child

Productive learning relies on a conducive environment:

- Find a separate, quiet space for learning. Be mindful of noise and distractions.
- An open area will allow for monitoring and avoid an isolated feeling.
- The space will require room to work and a strong wireless internet connection.
- Tools for learning should be easily accessible.

*Finding a distraction-free zone for learning is key to a success.*

*Parents can also model for their children.*

*Partnering with parents is a goal for all of our faculty.*

# Parents/Caregivers

## Communication

Your child's teachers, the dean, and other relevant learning support faculty/staff will maintain regular communication with parents/caregivers. The frequency of the communications will depend on your child's age, developmental stage, and level of independence. Please use email as your primary method of contact with teachers.

## Encourage Independence

Be interested, but allow your child to take control of his/her learning:

- Stay engaged in your child's learning by asking questions at the end of the day.
- Encourage independence so they can take ownership of their own learning.
- Some productive struggle is essential to learning. Let children grapple with problems and come up with ideas for tackling them. Stepping in too quickly to help solve problems will deprive your child of the opportunity to learn, try new approaches, and gain greater independence and confidence.
- It is natural for you to help your children, but please allow them to participate in both synchronous and asynchronous school work on their own.
- Remember Zoom is their classroom where you would normally not be present.
- If your child becomes discouraged and/or overwhelmed by schoolwork, please reach out to your child's teacher.

## Maintain Social Contact with Peers

It is very important for your child to stay in social contact with friends and peers during virtual learning periods. Encourage your child to interact with friends through other means if social distancing is required. When appropriate, students can form study groups created by their teachers or informal groups that they develop on their own.

*When given the opportunity, students can really grow their independence as online learners.*

# Parents/Caregivers

## Safety

The safety of our students is a priority. In order to create a safe environment, we recommend the following:

- Update devices regularly to ensure the safest experience.
- Links and passwords should remain within the Sem community.
- Only students will have access to Google Classroom and other learning management systems.

[commonsensemedia.org](https://commonsensemedia.org)

## Wellness

Exercise is vital to maintaining physical and mental health, reducing stress and anxiety, and improving concentration and focus for more effective learning and retention.

- Monitor student stress levels.
- Reach out to the nurses or counselor for advice as needed.
- Consider unstructured, device-free, gross motor activities at home.

## Time Management

Some students may need help with time management. It is important for parents to ensure that students are spending the appropriate amount of time on school work. Even if a student says that he or she is done with assignments, students should be actively working during the designated times to be certain they have met the specific expectations of each assignment.

### Helpful Hint — Bandwidth

With the potential of multiple devices being used simultaneously in a home, bandwidth could be taxed. Please monitor so that students can have the best possible technology experience.

# Students

*In-school technology integration helps students to have a smooth transition to virtual learning.*

## Attendance

Families should email the homeroom teachers to report absences per regular expectations. Attendance will be taken in each class.

## Grades

During the spring of 2020, Sem employed a “hold-harmless” approach to grading as our community adjusted to emergency online learning. If virtual learning is necessary during the 2020-2021 school year, students will be assessed and graded in all classes. Class grades and comments will be posted according to an announced schedule. Middle-school gradebooks will be open after the second week of each term.

## Assessment

Teachers will design assessments that are appropriate for virtual learning.

## Engagement

- For best engagement practices, students will...
  - Be dressed appropriately and ready for school.
  - Be on time for scheduled synchronous meetings.
  - Be respectful to teachers and peers. Be aware of background noise.
  - Have an appropriate work space during synchronous meetings.
  - Be prepared with tools needed for class.
  - Respect expectations of individual teachers.

# Students

## Engagement (continued)

- During synchronous classes, student video must be turned on. Those who are distractions to others for any reason may be muted or may have their videos turned off.
- Teachers will not be able to assist with technology issues during synchronous meetings. Questions and concerns should be directed to the teacher after class or use IT support.

## Safety

Student safety is a priority at Sem. In order to create a safe environment, we recommend the following:

- Update devices regularly to ensure the safest experience.
- Links and passwords should remain within the Sem community.
- Only students will have access to Google Classroom and other learning management systems.

## Honor Code

The Wyoming Seminary Honor Code and acceptable use policy apply to the virtual learning plan.

*Using manipulative with technology helps students to solidify content information.*

*Community building "Hat Day" done through Zoom video.*

# Sample Schedule: PreK & K
